

# FLOAT BUBBLES

I promise I'm not here to California your Texas (other than a little sparkling wine...)

Float Bubbles California Sparkling Wine is composed of Chardonnay and Pinot Noir, and crafted at a partner winery in Northern California. As a native of the Napa Valley, I've had the privilege of drinking some crazy good bubbles throughout the years. I love the bright, aromatic, and fresh sparkling wines produced in California and wanted the opportunity to share that with the TWC family. We're not saying you can't make great sparkling wine from Texas (Kim McPherson's Sparkling Wine crafted from Chenin Blanc is a staple in our Tasting Room and equally as delicious as anything coming from CA) but, we thought this would be something special. With all things Float, our goal is to create a wine that is approachable, fun, and would only taste better if you were on a tube meandering down a river. We think this fits the bill and hope you'll give it a chance, just like you did with me.

## Technical

### Specifications:

Varietal:

- 57% Chardonnay
- 40% Pinot Noir
- 3% Reserve Wines

Appellation: California

Bottled: February 2020

Alcohol: 12.2%

pH: 3.2

Thank you for the continued support,

Dave Bryant
